Section 1

Introduction to Tierra Marbles

Section 1: INTRODUCTION TO TIERRA MARBLE INTERNATIONAL

Tierra Marble is managed by a professional team of seasoned stone industry veterans, drawn from the finest manufacturers and processors of high-quality stone products from various ethnic origins, both from within the UAE and the EU.

The unique workforce is drawn from both professionally trained stoneworkers as well as from a pool of traditional stone craftsmen, most of whom possess an average of 25 years of diverse experience from within this field

The flexible organization of the company allows it to cater to the demanding requirements of both specialist boutique projects, as well as large value stone fit-out projects, across a wide cross section of clientele drawn from, but not limited to Hotels & Leisure Industry Projects, Private Villas, Premium Furnished / Serviced Apartments and Banks and Offices

The company is equipped with all technologically advanced marble processing machinery required to ensure high quality products which are aesthetically appealing.

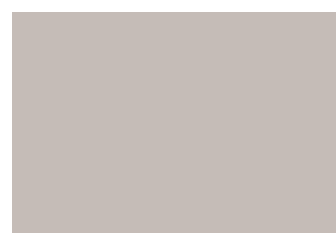

The company also takes care to ensure that their products economically positioned to make them an attractive proposition to the client base, by offering perceived value-for-money products.

For full company profile including our **products and services** and some of our major projects can be found in **Appendix 1: Tierra Marble's Full Company Brochures**

Section 3: SECTION 2: QHSE POLICY STATEMENTS

Tierra Marble is committed to delivering the utmost quality of its products and services while ensuring that its goals to protect both people and property, and to provide and maintain a safe and healthy work environment is achieved.

We are implementing proven Quality Management System to enable the delivery of workmanship and service to the highest standard. The goal of TMI is to achieve a high level of customer satisfaction at all times.

The organization believes in the concept of client and supplier working together in pursuing this policy and in continually striving for improvements in service quality.

The objectives of this program are to

- Planning and management domestic projects
- Complying with statutory obligations, standards, specifications and codes of practice relevant to quality management
- Maintaining monitoring, reviewing and continually improving the Quality Management System consistent with ISO 9001:2015
- Providing suitable resources to implement and maintain the Quality Management System
- Employment of suitably qualified, skilled and experience staff
- Educating and training in order to continually improve the skills of our staff
- Ensuring that we fully identify and conform to the needs of our customers
- Looking at our service provision processes, identifying the potential for errors and taking the necessary action to eliminate them
- Monitoring and evaluating the quality performance of consultants, subcontractors, and suppliers and implementing effective communication with them on quality and compliance issues.

We are all committed to operating continuously to this standard and we will maintain the necessary Quality Approvals consistent with our customer requirements

Our company will constantly review and improve on our services to ensure tasks are completed in the most cost effective and timely manner for the benefit of all our customers

We shall ensure that all our personnel understand and fully implement our company's policies and objectives and are able to perform their duties effectively through an ongoing training and development program

Copy of our ISO 9001:2015 Certificate can be found in Section 6.

Environment, Health and safety policy statement

Our actions are based on the following principles

- All injuries can be prevented
- We value human life above all and manage risks accordingly
- Safety is our topmost priority

The management is committed to the above policy and undertaken to

- Training all employees to work safely
- Protect all employees by eliminating hazards which could result to personal injury, security losses and damage to property and environment
- Provide and maintain work environment complying to all applicable legislative requirements]
- Promote a culture of health and safety in the organization, ensure that sufficient resources are available in implementing the safe work environment

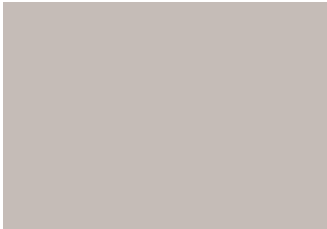

All employees are committed and have the responsibility to work safely and report any hazardous conditions should they arise.

Section 4

Project-Based Organization Structure

Section 4: PROJECT BASED ORGANIZATION STRUCTURE

Section 5

Overview of our Project Management Process

Section 5: Overview of Our Project Management Process

The following provides an overview how Tierra Marble effectively manage and execute the project management of products/ services which are carried out by the organization.

Project Management Procedure

Upon receipt of the project file, the Operation Manager shall review the conditions of contracts. Document distribution of the project file package to the team in charge of the project.

Coordination with the technical division to carry out their part of the works: designing programs, drawings, preparation of samples, technical document submissions, calculations if required, materials submission.

Once all initial documentations are approved by the client/main contractor, the project shall be forwarded to the design department for more details, proceeded by the release for production.

Work execution shall be carried out from procurement, production, installation.

The client shall inspect the work completed and on approval, invoices/ variations/ claims against approved work shall be submitted.

An overview of the project management until project completion is shown in the flowchart- FC-01 below

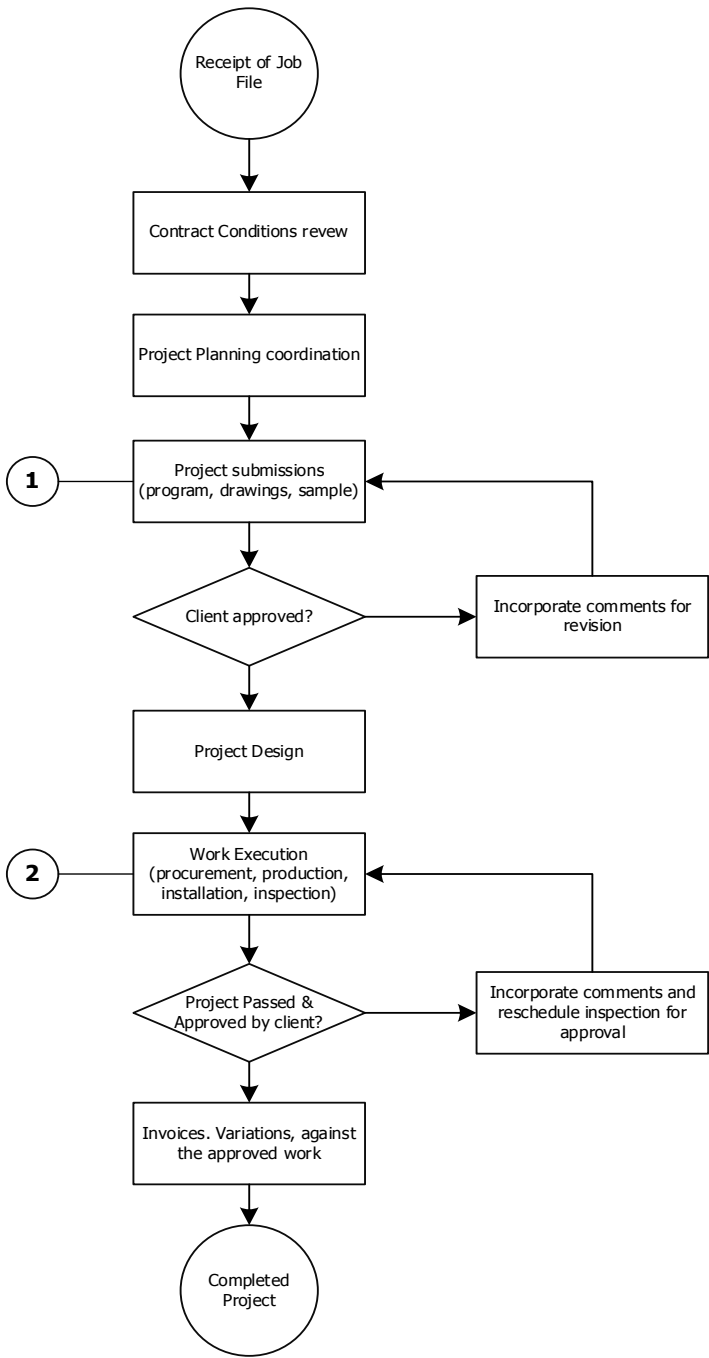

Notes:

- 1. Project submissions includes all submissions carried out in different phases of the project duration.
- 2. Work execution shall include all works related to procurement, material receipt, production, installation

*All changes/ variations requests shall be reviewed against conditions of contracts and sending proper notification to client before incorporating

*QUALITY checks are carried out in each phase

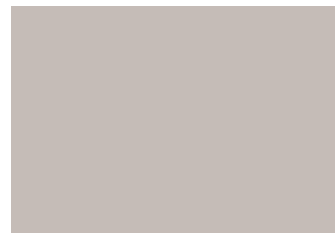

*Final Quality check is done while carrying out the dispatch processes and quality standing shall be mentioned in the materials/ products dispatch forms
